

District 205 to Buy 60 Acres

By MARGE RATCLIFFE

LOCKPORT — Felix Borio, chairman of the building and grounds committee for the Lockport high school board of education reported at the board's last meeting that his committee had voted unanimously to exercise their option and purchase 60 acres in Bolingbrook.

The land, located west of Route 53 on Briarcliff Road, is planned as a future school site. Borio said the Will County Board of School Trustees' decision to allow the district to split did not effect the land purchase. "Regardless of what happens with the split, the proper thing to do right now is get this land," Borio said. He explained that the assessed evaluation of the two halves is fairly close, and that in the case of a split, the assets are split in

direct ratio with the assessed evaluation.

The first payment of \$92,220 has been budgeted for this year's expenses, according to William Brill, board president.

Borio said several times he was sure purchase of the property would generate many questions and that he was sure they would be legitimate, and urges anyone in attendance to feel free to ask questions, but those in attendance remained silent.

The board discussed the need for an appraisal of all equipment in the three schools prior to a split in the district. Mrs. Joan Straka said she believed an appraisal was not needed, unless there was a disagreement between the two boards. Dr. Melvin Smith, assistant superintendent, responded by saying it would not be unusual if a disagreement occurred. He further said he felt an appraisal would be a good investment.

In other business, the board:

— approved a recommendation by Dr. Smith for the release of \$60,000 for instructional supplies; \$20,000 in additional equipment; \$10,000 for replacing equipment; \$250 for audio-visual repairs; \$450 for language laboratory; \$1500 for musical instruments; \$750 for teaching equipment; \$750 for office equipment; \$6,000 for guidance supplies; and sufficient funds for the purchase of the necessary textbooks for next year. "It is obvious we have to prepare for the opening of school and these are the minimal supplies needed."

— heard a letter from the North Central Association stating they would be happy to send a task force to the area if they felt the school board seriously desired their help. The letter, from Dr. Lowell Fisher, stated the NCA was most

doubtful of any help they could give the district, if the board did not believe in the association's criteria, and further pointed out that membership is voluntary and that the board could formally request withdrawal.

Several board members took exception to Dr. Fisher's letter; Steve Platko on the grounds it was "presumptive" to suggest the district does not want the association's services. He further stated he thought the letter was "rather dismaying" and if they were indeed a service organization, the district should be served when they needed help.

Jerry Harlan said he believed the board made it clear it would like a task force to come. He added he would like to express disappointment that a date has

WAITING TO SPEAK -- Fred L. Hartley, president of Union Oil Co. of California; Gov. Richard B. Ogilvie and Dr. Lee du Bridge, science advisor to Pres. Richard Nixon prepare Monday to dedicate \$200 million Chicago refinery in Romeoville.

Ogilvie Signs Bill, Dedicates Union-76 Refinery Monday

SOUTHWEST — Governor Richard B. Ogilvie spent most of the afternoon in Lockport and Romeoville Monday, June 29, and he will surely remember the area as "a place in the sun." It was a very hot day.

He was in the area for the dedication of the \$200 million refinery of the Union Oil Company of California, and the ceremonial signing into law of an education bill for year-round schools, held at West View Junior High School.

Ogilvie said the Union Oil dedication was more than the official launching of a magnificent new industrial facility which will meet the fuel needs of citizens throughout

the Midwest. He said the people here in the heartland of the Midwest view the refinery as a \$200 million monument to the confidence of American business and industry in the future of Illinois.

He noted that Union Oil not only renewed its long association with Illinois but also renewed its commitment to responsible corporate citizenship. He added that with a vast army of sophisticated and expensive equipment, the "simple but powerful fact that the future for all of us — citizen and corporation alike — must unfold within the context of the environment in which we live."

Fred L. Hartley, president of Union Oil, also spoke about our environment. He said the refinery represents financially the largest single capital investment ever made by Union Oil; technologically, it represents the most advanced refining systems and techniques known today; and socially, it represents recognition of the necessity of protecting the environment while producing the energy required for our continued growth and self-fulfillment. He added that 37 million of the total cost of the project was for expenditures directly related to air and water conservation.

Following the Union dedication, the governor pro-

ceeded to West View Junior High School, to officially open the school's innovative 45-15 plan. On his way, he passed pickets standing along Romeoville Road with signs proclaiming, "Pollution — Gone Today, Back Tomorrow," and other slogans. When the governor arrived at West View, he mentioned the sign-bearers and said he signed into law that morning the "toughest, most far-reaching pollution legislation in the state," in the presence of the attorney general from nearly every one of the fifty states.

The governor, who was introduced by Ray Page,

County Trustees Approve 205 Split

LOCKPORT — The Will County Board of School Trustees has voted to allow the detachment of Valley View District 96 and Wheatland School District 40-C from the Lockport High School District 205. Their decision was reached Monday, June 22 in an executive session.

Anyone who wishes to appeal the trustees' decision must do so within 35 days, and can file an appeal with the Circuit Court.

If no appeal is forthcoming, a special election will be called to elect a seven-member board of education for the newly created district. The present District 205 board will remain in office.

Five teachers in the district have hired an attorney to represent them as objectors to the split, but as yet, no appeal has been filed with the court.

William Brill, 205 board president, asked Dr. Melvin Smith, assistant superintendent, if the east side schools would be prepared to accommodate students from Crest Hill, which was not included in the detachment, if the split became final.

Smith said they were aware they would have additional students, and would be prepared when the time came, but that "you can only go so far," and additional teachers would not be hired until there is a definite need.

IT'S OFFICIAL -- Gov. Richard Ogilvie signs into law a bill which will allow Illinois schools to hold class year-round. Valley View School District 96 starts school today on the new 45-15 plan. (GRAPHIC Photo.)

What started to be an ordinary trip for a newspaper Friday night ended as an unfortunate mishap for Mike M. Atkus, 51, Route 1, Lemont. Atkus had parked his car in the Strands New Agency parking lot but noticed it rolling and jumped inside to stop it. He hit the accelerator

instead of the brake, however, and the car plunged 30 feet into the I & M Canal, landing on its roof. Atkus was taken by ambulance to a hospital where he was treated for lacerations of the arm and leg and released.

Former Mokena Man Enters Race for State Legislature

SOUTHWEST — Robert W. Munch, 27, formerly of Mokena, where he received the Citizen of the Year Award in 1963 for his work in the Boy Scout program, has announced his candidacy for the state legislature in the 41st District on the American Party ticket.

He has opened campaign headquarters at 501 North Chicago St., Joliet, and is working to complete his petitions. Since he is running on an independent ticket he must obtain 5,000 signatures

of persons who did not vote in either major party primary this year.

Munch has been a resident of Will County for 19 years. He and his father, Willard Much, a former member of the Mokena village board, own and operate Munch's Supply Co., at 801 East Cass St., Joliet, a wholesale distributor of plumbing, heating and electrical supplies.

In his announcement Munch said he will represent those who have no lobby

at Springfield, the family who is faced with the perplexing problem of operating a household on a limited budget that buys less tomorrow than it did today, the small businessman who is forced to operate under the burden of increasing taxes, an inflationary dollar and unnecessary government controls and the mother who wants to rear her children in an atmosphere of dignity and morality.

Munch describes himself as an advocate of an educational system which stresses academic studies, discipline and the development of responsible people.

One of his proposals as a representative is a bill to legalize Bingo for non-public schools as a means of raising funds rather than adding more taxes to "the already tax-beaten people of Illinois."

Munch is married and has three children.

S & S Strike

FRANKFORT — The June 1 strike at the S & S Sink Top plant, U.S. 45, is still going on and the plant is still in operation.

Negotiations for a new contract began 11 weeks before its termination May 31, according to company officials, and finally ended June 13. The striking employees are members of the plastic fabric workers of Local 1123, carpenters union.

The S & S firm builds and

installs kitchen and bathroom counters in new homes and apartments. Three years ago the company was involved in a wildcat strike involving a jurisdictional dispute between teamsters and carpenters. The National Labor Relations Board, officials said, decided that as drivers also were installers, the carpenters had jurisdiction.

The present strike involves money. The company contends that in the face of a dwindling market it could not meet the union's requests and remain on a competitive basis with some 60 similar firms in Cook County that are non-union, according to Nathan Sager.

There have been clashes between strikers and persons working at the plant, it was reported, and the company complains that a number of employees' cars and trucks have received flat tires from roofing nails left on roads.

A company spokesman said an injunction will be sought to prevent trouble.

Firemen Get Practice On Old Farmhouse

NEW LENOX — A farmhouse fire on South Cedar Road at New Lenox Thursday night was deliberately set, but there's no cause for alarm. The blaze was started by New Lenox firemen, at the request of the owner.

Firemen accepted the invitation to burn it for the opportunity it gave of practicing various fire fighting techniques.

Scholle 'Ready, Willing and Able To Return to Work

LOCKPORT -- State Representative Anthony Scario has informed the Lockport District 205 School Board that his client, Harold C. Scholle, is "ready, willing, and able" to return to the district office July 1.

In March, the board voted 5-2 to terminate Scholle's employment, effective June 30, 1970. The reasons for his dismissal were not disclosed.

At the time, Scholle said

he believed he had a two-year contract with the board and retained Scario to represent him. Scario's recent letter to the board states that he and his client believe the contract is valid and binding.

Board President William Brill directed John Cirricione, the District 205 attorney, to correspond with Scario and confirm the prior action of the board.

Scholle was appointed superintendent by the board in April of 1969, after the resignation of Dr. William Blatnik. A motion by Stephen Platko that Scholle be "appointed superintendent of Lockport Township High School District 205 and that his contract be for two years at an annual salary of \$23,500 with an annual travel expense allowance of \$500, effective June 30, 1969, the date of Superintendent Blatnik's resignation," was seconded by board member Thomas Wilson, with members Felix Borio, Frank Lynch, William Walden, Thomas Wilson, Stephen Platko and William Brill voting yes.

Scholle said at the time of his dismissal that his attorney would file an appeal. This has not been done to date. He currently is on vacation and did not attend Thursday's board meeting and was not available for comment.

In the second play, titled "Next," he is a 40-year-old man who goes for his army physical only to find that the examining officer is a lady.

Steve is the son of Mr. and Mrs. Leroy Lawrence, of Lockport.

not been suggested. He believes help definitely is needed, as the district's past problems need attention, and with the proposed split, he feels there are more immediate problems as well.

The board asked Mrs. Straka to write Dr. Fisher and inform him of their sincere desire for help.

The board also approved a resolution giving the Superintendent authority to act for the board on all federally funded and Title programs, and further authorized representation for the board to apply for funds, in compliance with legal requirements for the 1970-71 fiscal year.

Phillip Polley, chairman of the teachers' welfare committee, urged the board to call for a referendum at the earliest possible date and said he could assure the board the teachers would fully support it. He spoke with regard to the Will County Board of School Trustees decision to allow the district to split, based on the testimony of many area residents who said if a split were affected, they would be more willing to support referenda.

The board accepted the resignations of Paul Carter, science instructor, Lockport West; Robert Wolfer, industrial ed-

ucation, Lockport East; Raymond Sheffield, East High School assistant principal; Mrs. Linda Kinnikin, who was granted a leave of absence from Sept. 19, 1969 to June 5, 1970 and has now resigned; Mrs. Janet Valuch, business education instructor at Central High School; Ellen Bannigan, social studies at Lockport Central and Susanne Early, girls' physical education instructor at Lockport West.

The board accepted Dr. Smith's recommendation to hire Norman Dalton, science instructor for Lockport West at a salary of \$10,891 based on the 1969-70 schedule and Carol Pratt, science instructor for West at a salary of \$7,524 based on the current salary schedule.

Smith told the board that all 38 teachers who had been released during cutbacks in the staff had found other employment, been re-employed, or decided not to teach this year, except two, a music teacher and a math teacher. He added that candidates were being screened to fill positions still open.

The board approved a request to allow the Lockport Central-East band to play at the Lockport Township Park District's 25th anniversary celebration.

Firemen examine the walls in the basement of the R.E. Sippel home, LaPorte Road, Mokena, to make certain no sparks remain to start the fire again.

Fire Causes \$10,000 Damage to Mokena Home

MOKENA — Fire of undetermined origin in the basement caused an estimated \$10,000 damage to the home of Mr. and Mrs. Richard E. Sippel, LaPorte Road. The fire was confined to the basement, but smoke and heat damaged the rest of the house.

The fire was discovered a few minutes before 7 a.m. June 25, when Mrs. Sippel had gone into the bathroom and smelled smoke in the

basement. She opened a clothes chute in the wall and smoke came rolling out. The couple called the fire department from a neighbor's home.

When Mokena volunteer firemen arrived, Chief Robert Rust called the Frankfort and New Lenox departments for aid.

The heat was so intense plastic tile on the bathroom walls and the plates on electrical outlets melted. The only way firemen could get

to the blaze was by cutting a hole through a ground floor room and drop a basement nozzle, a pipe with numerous holes. By twisting it water is sent in all directions.

The fire started in a corner of the furnace room but firemen have been unable to determine the origin.

"That basement pipe saved the house from burning," Chief Rust said. "Had it not been for that the place prob-

ably would have gone. We couldn't work in the basement when work was needed because of the smoke

and heat. That black smoke from the tires was too much to eat."

Smoke ejectors were em-

ployed immediately, but it was some time before firemen could get into the basement.

N. Lenox Village Board To Have Busy Evening

by Glenn Logan

NEW LENOX — The village board faces a busy evening.

When it meets at 7:30 tonight the board is expected to annex a couple of homes on Inner Court and is preparing for the annexation of other properties in the area that are within the confines of the municipality but not yet a part of it. The owners have been notified.

The two properties to be annexed tonight will be obliged to connect with the sanitary sewer, as will the other properties when they are annexed. They are serviced now with septic tanks which neighbors say are not working efficiently. Complaints report raw sewage in roadside ditches and obnoxious odors.

Sewers were installed in this area a year ago and most of the people hooked on and became annexed to the village. Some, about 10 in all, elected to go along with their septic tanks and declined to become annexed. However, they are surrounded by property within the village, which means that now they can be brought into municipality.

The board tonight will open bids on an addition to the village hall and a drainage project that goes from Inner Court to Cedar Road and south where it will join a culvert serving the new fire station.

The 24-inch pipe has been buried in a ditch along a two-block stretch of Pine Street where people have been complaining of excessive drainage for 20 years.

There have been several light rains and one in excess of two inches since the line was installed on Pine Street and reports indicate it has been working fine.

Ogilvie

(Continued from Page 1)

Illinois Superintendent of Public Instruction, congratulated the Valley View School District on their plan, and said the state would help in every way it could for the plan's success and added that perhaps it would become the solution for Chicago's troubled schools. A small old fashioned desk, dating back to the one-room school era, was provided for the governor to sit in and sign the bill into law.

He looked at it and said it had been more years than he cared to remember since he'd seen one. Other dignitaries on the platform were John O'Hara, mayor of Romeoville; Robert Shanks, president of the village of Bolingbrook; Roy Hassert, chairman of the Will County Board of Supervisors; William J. Crowley, president of the Illinois State Chamber of Commerce; Boyd R. Bucher, Superintendent of the Will County Educational Service Region, and the District 96 school board members and administration.

NI-Gas Limits Service To Large Volume-Users

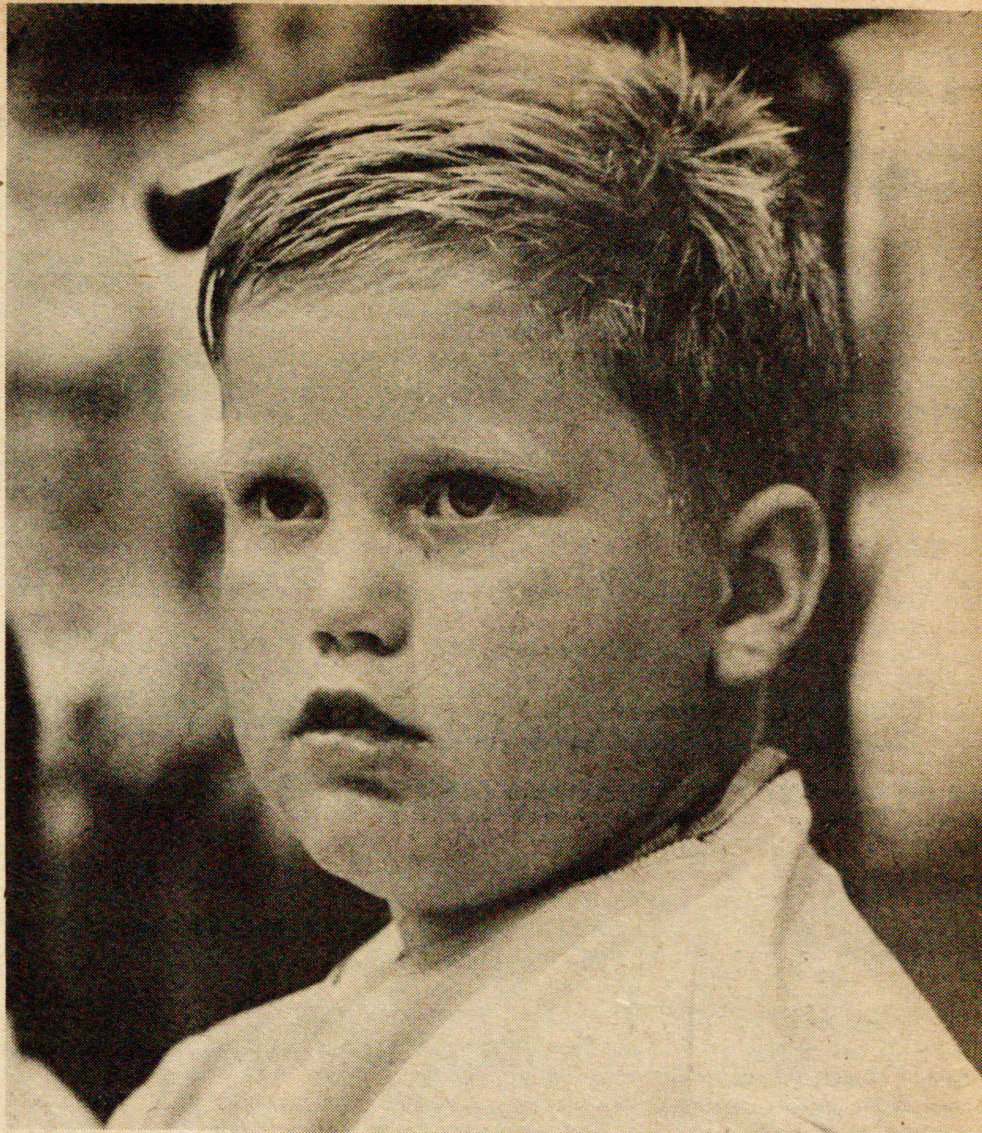

SOUTHWEST — Northern Illinois Gas Company has announced that more strict limitations on natural gas service to potential new large-use industrial and commercial applicants will begin immediately. The company applied to the Illinois Commerce Commission after the Natural Gas Pipeline Company of America indicated it will probably not be able to meet its present contractual commitments to NI-Gas.

Under the revised policy, only large gas-use applicants will be affected. Service to all existing customers, and to new residential or small commercial customers, will

not be affected, officials announced.

The NI-Gas action followed a more stringent curtailment of service by The Peoples Gas Light and Coke Company made necessary because of limited new gas supplies currently available and the Chicago air pollution ordinance which becomes effective July 1. NI-Gas provides gas service to most of the suburban area and much of northern and central Illinois.

NI-Gas spokesmen emphasized that the company would continue to search for new sources of natural gas and to encourage more exploration in order to help solve the temporary slack in natural gas supply.

Dist. 96 Eligible For Loan

By LOUISE SCHALLER

ROMEovILLE — Valley View School District 96 is eligible for an interest-free state loan, according to an announcement made June 22, at the regular board meeting. The availability of this money is contingent upon passage of a referendum.

Supt. Kenneth Hermansen said, "The referendum would be in three parts; a tax increase of 19 cents for per \$100 assessed evaluation, which would increase the taxes on each house from \$15 to 19 per year."

Hermansen said buildings must be constructed and additions made to some of the existing buildings. Plans call for a 30-room school in Indian Oaks sub-

division to occupy a site donated by Hoffman and Rosner; a 15 room addition to the Ridge View School and a 15-room addition to Brook View School.

The district's schools will be over-crowded by the 1971-72 term unless proposed construction takes place, he said. One million dollars in interest could be saved by using interest-free money.

In other business, a program was presented by Harry J. Delfs, demonstrating use of projectors and transparencies. Delfs is director of multimedia resources.

A receipt of taxes from Wheatland Township of \$563 was reported by William Kobliska.

Backs Cambodian Invasion

Editor's Note: The following is an excerpt from a letter by Glenn Ruguone, a member of the U.S. Air Force stationed in Vietnam, to his parents, Mr. and Mrs. Nello Ruguone, 1180 South State St., Lemont, shortly after Pres. Nixon announced that U.S. ground troops had entered Cambodia. It is followed by a subsequent letter to the Ruguones by Pres. Nixon. While representing only one opinion of the Vietnam and Cambodia war, Ruguone's thoughts deserve consideration as we ponder the direction of our country this Independence Day.

is — a game? This war is well worth a good fight.

...The Vietnamese army is becoming stronger all the time. With the training they are getting from us they'll be able to carry on themselves and believe me they just aren't able to handle it themselves yet.

...There is still a war and people longing to be free.

Give everyone my love. Keep the lasagna warm.

Love,
 Glenn

Dear Family,

The Cambodia invasion was the greatest thing that has happened since this war has begun. The next thing that we could do would be to bomb North Vietnam. As you know Pluku is only 37 miles from the Cambodian border. You don't know what it is like to chase the enemy and not be able to pursue him into Cambodia. Or to be on a little fire site 4 miles from the border and the NVA throw rockets or mortars in from the other side and you can't shoot back. The NVA (Communist) have had their headquarters there for almost 5 years and it was a hard blow to their forces. What do the people back there think this

June 24, 1970

Dear Mr. and Mrs. Ruguone:

It was kind of you to let me have a copy of your son's recent letter with your very thoughtful comments. The personal sacrifice you and he are making in the cause of freedom gives a special significance to your views, and I want you to know how pleased I was to hear from you. Your encouragement means a great deal to everyone of America's fighting men, and it means a great deal to me.

With my best wishes,

Sincerely,
 Richard Nixon

Stay Home with George

The temptation to "let George do it" has been with us for many years. All of us want to see things done, but would rather let somebody else do them. In Lockport, there has not been a fireworks display for several years — and we have mumbled about it, and gone elsewhere to celebrate the Fourth of July.

This year, however, with the help of "George" and we refer to George Nordstrom, Lockport's mayor, things will be different. The mayor, with the help of Don White and Ray Boland, has planned what he terms "the best fireworks display ever" and it's all geared to keeping Lockport residents off the highways and safe at home on the Fourth.

He ordered the fireworks and then solicited the help of Democrats and

Republicans, businessmen, the city council, the township, industry, and service clubs. They all responded, and at last, there is a local issue on which we can all agree. We are going to have a bang-up local celebration.

The festivities will start at 3 p.m. at Dellwood Park with parachute jumps at the baseball diamond. Also planned is a baseball game between two teams from the Colt League, an additional refreshment stand, music, and of course, the grand finale, which will come at dark.

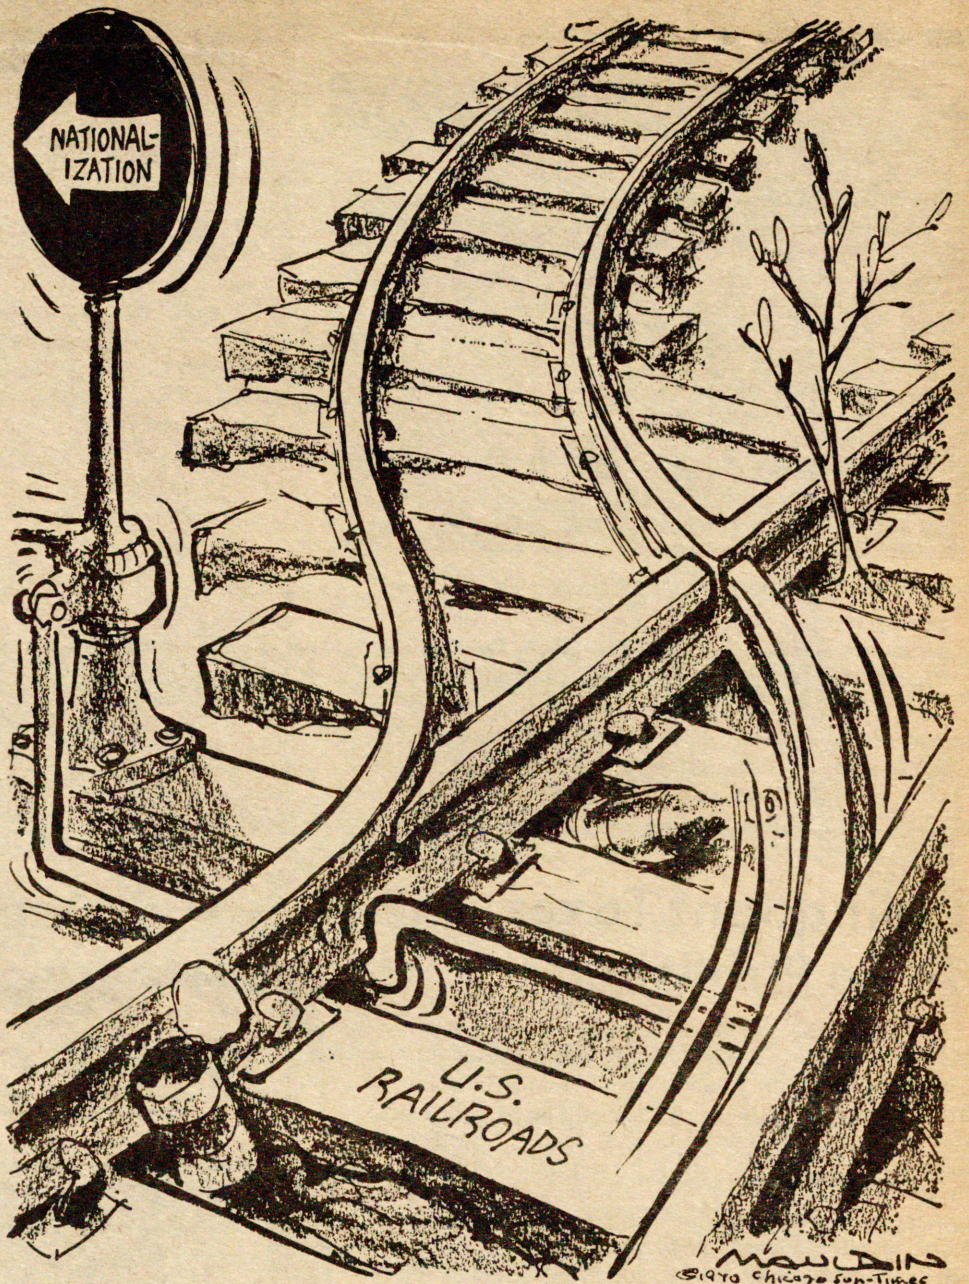

The mayor has gone to a great deal of trouble to insure people who stay home this year will be glad they did. He has urged everyone to bring a picnic, all the kids, and have an old-fashioned good time. It would be great if everyone complied with his wishes.

He has a second request — that everyone in attendance follow police instructions with regard to parking and the flow of traffic. If you do this, leaving when it's all over will be a lot more pleasant.

George started it and got the ball rolling — let's help him toward a successful finish with a safe and sane "at home" Fourth of July.

LETTERS TO THE EDITOR

from Southwest Graphic readers are welcomed. Letters should not exceed 300 words and must be the original copy. Each must be signed, though the name of the writer will not be published if requested. The Southwest Graphic will exercise the right to edit letters to comply with these limitations.

Letters to the Editor

Dear Editor:

After having been disgusted to see the debris surrounding the nest of a Mallard female duck in the Forest Preserves, in your June 17 issue, we were delighted to find in your June 24 issue that your photographer, Steve Potter, had removed the debris and got another picture of the nesting duck. Also we appreciated the three other pictures of wild ducks with explanatory notes on the same page entitled, "It's All In A Duck's Day."

In the same issue, we were pleased to read of the action by the Sagawau Conservation Club, the Ecology Action Committee of Moraine Community College and the Palos Area Boy Scout Troop 1668 in clearing the garbage from the natural spring east of Lemont. We were shocked by the picture of debris around the spring. Although this spring serves many people beyond the Lemont area, it would seem that Lemonters would take such pride in this precious gift of nature that they would never let garbage accumulate near it.

We hope to see in future issues of your paper more such nature picture-stories as the Mallard duck "family capers." We believe such picture-stories are not only entertaining but helpful to readers in understanding our responsibility to protect wildlife and to keep our natural environment clean and beautiful.

Very sincerely yours,
 Mr. and Mrs. Louis F. Buckner

Editor:

This letter should be addressed to every parent and child in your reading area, especially the parents, the teachers. In Frankfort, as well as other communities we have a park with a baseball diamond. In this park we have a refreshment stand and all candy, pop, and other things. There are trash cans for people to use and it disturbs me and others greatly to see these "litter-bugs" take the newspapers and cups and bags and throw them on the ground instead of in the cans.

One can only sit and wonder how these parents would feel if this were happening in their front yards.

Because of these thoughtless, lazy, careless people the ball teams in our town spend time before the games cleaning up the garbage so the "litter-bugs" can go to work again.

I appeal to all these parents to educate themselves and their children to please take some pride in their community and use the trash cans instead of the ground.

Mrs. W. Osborne

We would like to print it all, but space limitations make this impossible. In order to make room for your story, we should have the information before the event but no later than Friday of the week in which it occurs. right will be enforced through "appropriate legal proceedings."

There is now serious doubt as to whether this article will be included mainly because of pressure from a small but very strong industrial blobby. Every citizen of Illinois has the right to a clean environment, and no small, select group can be allowed to take that right away. We urge the citizens of this state to write immediately to their con-con representatives, asking them to support this article. It's our environment — we must work together to save it.

N.L. Police Get State Radio Network Units

NEW LENOX -- New Lenox police department has become one of the first law enforcement agencies in Illinois to receive mobile radio units which will link it to a state-wide emergency communications network, according to Police Chief Joseph Wajchert.

Chief Wajchert said his agency has received two units as a part of the Illinois State Police Emergency Radio Network (ISPERN), the first police car-to-car communications system of its kind in the nation. The ISPERN frequency will enable the New Lenox Police Department to communicate with municipal, county and state law enforcement agencies immediately in emergency situations, he said.

The ISPERN units were furnished at no cost by the Illinois Department of Law Enforcement through funding by the Illinois Law Enforcement Commission. New Lenox police department is responsible only for the cost of installation and any equipment needed to monitor the network frequency at police headquarters, Chief Wajchert said.

The new radios, designed by the General Electric, are easily distinguished by their bright red microphones. By the end of 1970, the Illinois Department of Law Enforcement expects these units to be installed in every police vehicle in the state.

"As a participant in ISPERN, our agency will be able to coordinate and cooperate more effectively with other law enforcement agencies in the area in the war on crime," Chief Wajchert said. "We are proud to be-

Phone Co. Plans To Add Cable

NEW LENOX — Illinois Bell Telephone has announced plans to add 2,800 feet of new underground telephone cable from the New Lenox office across Haven Avenue and along the east parkway of Cedar Rd. to Joliet Hwy.

Weather permitting this week, P.T. Ferro Construction Co. of Joliet will begin burying 2,700 feet of six-inch conduit to house the new cable and construct

three new manholes along the conduit route.

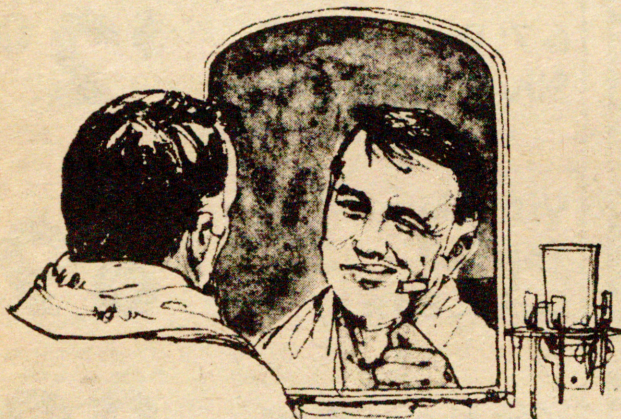

Once construction is completed, linesmen will place 2,800 feet of cable through one of the six ducts. The remaining ducts will be used when needs arise and no further digging will be necessary in the area. Bill Cremer, Illinois Bell local manager, said the trenched areas will be restored as soon as possible.

Parade Ordinance Now On Frankfort's Books

FRANKFORT -- The village board has adopted an ordinance covering parades. A permit will be required to stage one and applications for such must not be less than 48 hours prior to the affair nor more than 60 days in advance.

The application must car-

ry the name, address and telephone number of the person seeking to conduct, such a parade and if sponsored by an organization the names of the group's officers. Other necessary data include the route, the approximate number of participants, types of animals if any, description of the vehicles involved, the place and time of assembly and whether the entire width of the streets will be used.

The ordinance appears on another page in this paper. Penalties for violations range from \$5 to \$200. Village Attorney August Santoro told the board that he had conferred with Police Chief Ted Massey on the various provisions in the measure before drawing it up.

96 Board Files ICC Complaint

ROMEOVILLE — The board members of Valley View School District were informed at its June 8 meeting that a complaint has been filed on their behalf against Illinois Bell Telephone Company. Eugene Korst, the board's attorney, received word from the Illinois Commerce Commission that the complaint will be processed. The legal action is the result of the school's inability to obtain service from Illinois Bell to transmit closed-circuit television broadcasts.

Ronald Strahanoski was hired as an administrative assistant to John Lukansic. Thirteen new teachers were hired.

Ronald Breyne, DuPage township collector, made one half million dollars available to the school district, which will be used to retire tax warrants and save \$2,000 in interest. James Bingle, board president, told the board that outstanding warrants must be paid from this money according to law.

The bid for rental of towels for students' use in the physical education department was awarded to National School Towel Service at \$2.10 per semester.

The board also agreed to a request by Ken Hermansen, superintendent, to drop the \$3 workbook fee to students for the coming year.

Swimsuits Can Be Selected To Fit Your Activities, Image

Whether you fit into the category of "swim champ" or "sun worshipper," the fit, style and fabric of your swimsuit will affect your comfort and your image.

Marjorie Sohn, University of Illinois Extension clothing specialist, offers these suggestions for selecting a "swimmable" swimsuit.

The fabric should fit to the body and give with each body movement. Knits and jerseys are ideal flexible fabrics that give with every stroke and kick.

The style for the swimmer who loves to swim should be simple. Unnecessary or extraneous trim, such as ruffles or skirts, will get heavy in water and hold you back. Avid swimmers favor maillots, two-piece knits and surfers.

The fit should be, first of all, comfortable. A bathing suit should not bind, slip

down, or ride up. When trying on the suit in the dressing room at the store, bend, twist and stroke as you will move in the water to check the fit.

If you prefer a quick dip in the water and a longer time on the beach, you want a swimsuit that will take the water but look attractive when it is wet and you are strolling on the beach or near the pool. In this case, the important factors to consider are how quickly the suit will dry and how it will hold its shape. Select synthetic blends and crease-resistant or durable-press finish suits to eliminate the limp, soggy look.

No matter what your swimming ability or interest may be, select the style of swimsuit that flatters your figure. Swimsuits come in a variety of styles for a variety of figures.

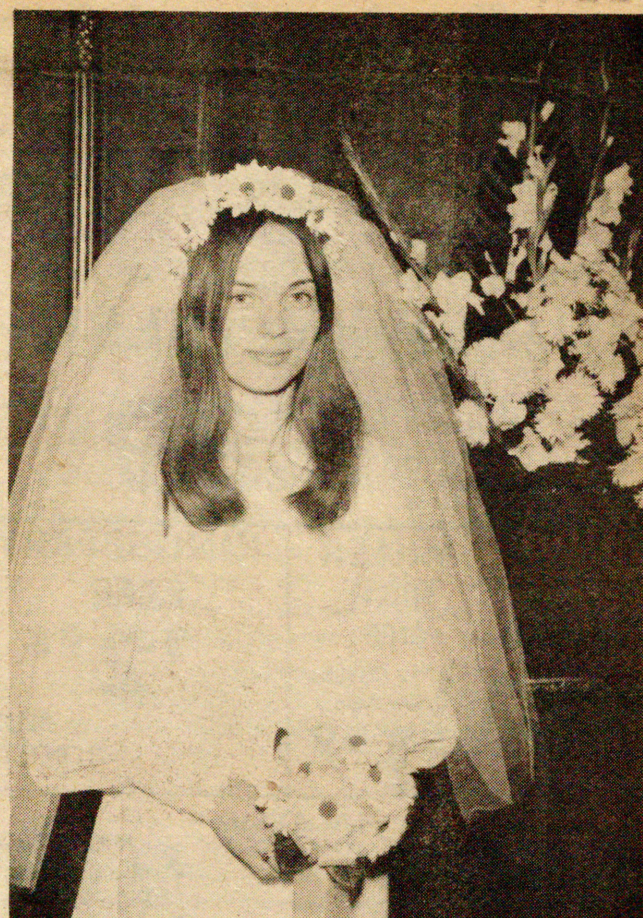

The swimdress gives a covered up look that camouflages ample hips and midriff. The dress part may be A-line shape or apron effect with matching bottom — bikini, boy-legged shorts or bloomers.

The maillot, a stretchy one-piece suit, rates high with the serious swimmer with average to full figure. Many versions currently available include different neckline styles and cutouts.

Before choosing the popular bikini, consider the requirements for a beautiful bikini image. The wearer of

this scantiest of swimsuits should have a flat stomach, non-bulgy hips and slim thighs.

If your figure is well-proportioned but you have thigh problems, choose the modified bikini or surfer. This two-piece style covers up more than does the bikini. Bottoms usually are styled with little skirts or boy legs. Tops also cover more of the figure with scooped neckline and wider straps, which help minimize a large bustline. Two-piece swimsuits provide no camouflage for midriff rolls or bulges.

Paintings must be framed and ready to hang and measure no less than 12 by 16 inches, unframed, nor larger than 24 by 36 inches.

Roast Duck Gaining As Grill Favorite

As more and more fried chicken drive-ins crop up, duck is swiftly becoming a favorite fare of outdoor barbecuing enthusiasts. Nothing is more compatible with new covered barbecue kettles. The rich, fatty texture of duck makes it self-basting when roasted to perfection in a covered kettle.

Long Island Duckling Orange-Burgundy

1 5-pound Long Island duckling
1 celery top
2 onion slices
1 quartered orange
¼ teaspoon thyme
2 cups Burgundy wine
½ cup frozen orange concentrate

Slosh the cavity with Burgundy, stuff with celery top, onion slices, orange quarters and thyme, and skewer shut. Mix Burgundy and orange concentrate and rub outside of duck before sprinkling with salt and pepper. Prepare charcoal for indirect heat and place duck on grill over a foil drip pan set between the stacks of coals. Cover and roast for two hours. Fifteen minutes after roasting starts, prick skin in fatty areas and baste with wine-orange mixture frequently thereafter. Discard cavity contents before serving. Decorate platter with greens and orange slices. Serves four.

DRIVING?

THINK SAFETY

Which Would You Rather Save . . .

Two Minutes — or Your Life?

"I don't know how it could have happened!" That's what most accident victims say, if they're lucky. This vacation season, make sure it doesn't happen to you. Remember, the urge to cover more miles faster often leads to a dead end. Obey the rules of the road . . . observe speed limits . . . keep alert . . . look out for other drivers. Before you go, thoroughly check your car to make sure it's in top condition. Take care . . . and enjoy your vacation.

(in understanding, there is money)

	4½%	5%	5½%	5¾%
How to use the account	Your regular savings account, an interest paying cookie jar. You can have too much or too little in this account. Additional money should go in higher interest accounts instead.	Your Golden Savings Account. Save for the costly things you want. A nice vacation, a color TV, a new refrigerator, your big dream. Think of it as an installment plan that pays interest.	A very safe investment. Here's where you keep money you hope not to use for a long time. Money for retirement, college educations, a summer cottage.	
To earn this interest	4½% is the highest legal interest a bank can pay on regular savings and still allow you to get your money at any time without losing interest.	You agree to keep your money on deposit for at least 90 days.	You agree to keep your money on deposit for a full year. (If you think you can keep it in for more than a year use the 5¾% plan.)	In order to earn 5¾%, you agree to leave your money on deposit for 2 years or more.
How to start and build your savings	Start with \$10.00. You can add any amount, at any time and still earn your 4½%.	Start with \$100.00. You can add any amount, at any time but each deposit must remain for 90 days to earn 5%.	These are certificates you can buy instead of deposits you make. The certificate can be purchased for as little as \$100—a very low price for C.D.'s. And, you start earning interest from the time you buy it.	
How is interest paid	Interest is paid monthly.	Interest is paid monthly.	Interest is paid monthly. And, interest checks can be mailed monthly, semi-annually, annually, depending on the amount of the certificates.	

All interest is earned from day of deposit and is compounded continuously by computer, so it's actually somewhat higher in the long run.

A well-organized savings plan is the easiest way we know to pick up some extra money. So here's a simple, unconfused presentation of all the savings plans available at our bank. We don't think you should be kept out of a good deal just because we haven't taken the time to explain it clearly.

They're all cute when they're puppies.
But what happens when they grow up?

When you're looking for a puppy, you should think about a lot more than just the puppy. Right now, he's a cuddly bundle of love—but when he grows up, will your house have the space for him? Will he need more exercise than you can give him? Will he be the watchdog you want?

At Puppy Palace, we not only know about puppies, we know about grown-up dogs. For instance, if you have a one-room apartment, we'd never recommend a St. Bernard or Great Dane for you. If you want a watchdog, we won't recommend a Golden Retriever—because he loves *everybody*, strangers and all. If you like a quiet dog, we'd recommend against buying a peppy Terrier.

When you come to Puppy Palace for a puppy, we find about your home and family. And then we find a puppy to match.

43 breeds available

Those lovable puppies above are just three of 43 breeds that Puppy Palace has to choose from.

• All our puppies are purebred and A.K.C. registered.

• All our puppies are in the pink of health, and we've given them their puppy shots to help keep them that way.

• We give you a 7-day home trial. If you and your puppy just don't work out, bring him back within a week and exchange him for another puppy of equal value.

• We also give you a 6-month guarantee. If anything should happen to your puppy in that time—we'll replace him, free. (Of course, we expect you to take proper care of him, and take him to the veterinarian for checkup and shots.)

A department store for dogs

Once you've got your perfect puppy, we've got everything your puppy will need. Everything.

At our Accessory Bar

For instance, our Accessory Bar has leashes and collars, from plain to ultra-fancy. And sweaters, Coats, Raincoats, Booties. The works.

At our Bath Bar

When you wash your dog, you need more than just a bar of soap. We have all sorts of shampoos—dry shampoos for fast touch-ups or cold weather, white Lustre Shampoo, for white-coated dogs. And we have tangle-free rinse, to make combing out easy.

Whether you've already got your perfect puppy, or are looking for him—come to Puppy Palace. We've got everything you need.
